MEMORANDUM FOR THE RECORD

**SUBJECT: Congressional Census of Unclassified Agency
Scientific and Technical External Research
Contracts**

1. In response to a request by the Office of the Legislative Council, the undersigned has determined that there are a number of external research contracts generated by the Office of Scientific Intelligence which individually could be included in the census of technical research contracts requested by the House Subcommittee on Science, Research, and Development (Committee on Science and Astronautics). These contracts are unclassified both as to Agency affiliation and end product.

2. [] O/LC, was advised by the undersigned today, however, that it probably would be advisable to request the Director of Logistics to be the action party for the Agency response to the House request, and that the Agency response should be coordinated with the Director of Security to assure that a compilation of Agency unclassified external research contracts is not subject to security classification as a compilation of Agency programs and areas of interests.

3. [] Office of the Deputy Director for Intelligence, were informed of the recommendation to the O/LC.

<p>Remarks Attached is a request from the House Select Committee on Government Research for information from the various Government agencies "which collect and offer information on Federal research and development efforts." A check with the Committee staff indicates that this is a separate survey (emphasizing the informational aspects) from the previous request which had to do with contracts, grants, etc., in the R&D field. I am assuming that in order to respond to this request, the Agency would be required to disclose classified information (which the Committee has stated</p> <p style="text-align: center;">(over)</p>					
FOLD HERE TO RETURN TO SENDER
